
Sound Design

By sunscope — August 8, 2023

Professional Audio Post for Film, TV, Digital, and Branded Media

Sunscope Entertainment delivers cinematic-quality sound design that elevates your story. Our expert team works across genres and platforms, offering complete audio post-production tailored to your project's needs — from indie films and commercials to podcasts and streaming series.

Services Included

Creative Sound Design

- Custom atmospheres, transitions, and audio textures
- Designed sonic elements for mood, tension, and narrative impact

Dialogue Editing & Cleanup

- Cleanup of production audio
- Syncing ADR and applying EQ, noise reduction, and compression

Foley Recording & Editing

- In-studio recording of movement, props, and environments
- Precision synced to on-screen action

Sound Effects & Layering

- Integration of industry-standard sound libraries
- Layered effects customized to fit your story world

Music Integration & Stem Balancing

- Dialogue-music balance and seamless transitions
- Optional support with original score and licensing coordination

Surround & Spatial Audio Mixing

- 5.1, 7.1, and immersive formats for theater, streaming, or VR

Final Mastering & Delivery

- Platform-specific mastering (Netflix, Apple TV, YouTube, etc.)
- Export to Pro Tools sessions, WAVs, stems, or DCP

Competitive Rates

Service	Hourly (3-hr min)	Day Rate (10 hrs)	Weekly Rate (50 hrs)
